

TAKE A GLASS OF SALTS WHEN BLADDER BOTHERS

Harmless to Flush Kidneys and Neutralize Irritating Acids—Splendid for the System.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—Adv.

Original "Tommy Atkins."

The first Tommy Atkins, the name since applied to all privates in the British army, was gunner Thomas Atkins. Gunner Atkins, in the reign of George III, invented a pocket ledger which won tremendous popularity among the soldiers. The little book came to be known as a Tommy Atkins, and soon, since every private had one, the men were called by the same name.

GAS, DYSPEPSIA AND INDIGESTION

"Pape's Diapiesin" settles sour, gassy stomachs in five minutes—Time it!

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it.

Pape's Diapiesin is noted for its speed in giving relief; its harmlessness; its certain unfailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any dealer and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapiesin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.—Adv.

Domestic Finance.

"We are spending more money than we can afford, my dear," said hubby. "Can't we do something to reduce the household expenses?"

"I'm doing the best I can, love," replied his wife. "I haven't paid the butcher or the grocer in months, but I simply cannot get credit for matinee tickets, and my losses at bridge have to be paid in cash, too."

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Beautify Your Hair! Make It Soft, Fluffy and Luxuriant—Try the Moist Cloth.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any store and, prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all. Adv.

The mills of the gods seldom shut down for repairs.

FACTS ON MEXICO SENT TO SENATE

PRESIDENT RESPONDS TO FALL
RESOLUTION AND SENDS HIS
REPORT.

SUMMARY OF THE EVENTS

Facts Leading Up to Recognition of Carranza Government Sent to Senate in Form of Letter.

Washington.—President Wilson has sent to the Senate his response to the Fall resolution requesting him to report on facts leading up to recognition by the United States of the Carranza Government of Mexico. It was in the form of a letter from Secretary Lansing, summarizing the events which preceded recognition and transmitting a great volume of data.

The President through Mr. Lansing declined to comply with that part of the Fall resolution asking for diplomatic and consular reports on political conditions and events in Mexico. The senate was informed that it was not compatible with public interests to furnish this correspondence inasmuch as it was of a highly confidential nature and "submitted by consular officers of the United States, by diplomatic or consular officers of other governments which have graciously consented that their officers might supply this government with information during the necessary absence of American representatives and by other persons residing in Mexico."

As to the ability of Carranza to fulfill his promises to protect foreign lives and property, Mr. Lansing said that under all the circumstances, the de facto government, which at the time of recognition controlled more than 75 per cent of Mexico's territory, was affording "reasonable adequate protection to the lives and property of American citizens."

The data disclosed that 76 Americans were killed in Mexico in the years 1913, 1914, 1915 and compared with 47 in the three years preceding, and that 20 civilian Americans and 16 soldiers were killed on American soil in the last three years as a result of Mexican troubles.

The response to the resolution is expected to stir up a new discussion of the Mexican situation in the senate and to bring a vote quickly on the nomination of Henry Prather Fletcher, as Ambassador to Mexico.

SEABOARD LIMITED WRECKED.

Third Accident in Two Weeks Occurs Near Richmond.

Richmond, Va.—Eleven persons were injured, several of them seriously, when the northbound Florida Limited No. 10 on the Seaboard Air Line Railway, crashed through a trestle spanning Kingsland Creek, eight miles south of Richmond. The engine passed over the trestle in safety but the baggage car leaped from the track tearing up the ties and rails and through this gap four coaches plunged and turned over on their sides at the bottom of the 20-foot embankment. Fifty-seven passengers were aboard the train and that there was not heavy loss of life is attributed to the fact that all of the derailed Pullman coaches were of heavy steel construction.

The derailment of the limited was caused directly by the dropping of an arch bar on the rear truck of the engine as the train approached the trestle. The bar opened a switch where the track branches off toward a gravel pit. As the front truck of the baggage car struck the open switch it left the tracks and ran on the ties a distance of 1,000 feet until it struck the guard rail on the trestle.

This was the third accident which has befallen the Florida Limited within the past two weeks. One Tuesday of last week it was wrecked near Southern Pines, N. C., when Engineer David K. Wright was killed, and again on Tuesday of this week it met with disaster at Franklinton, N. C., when the engineer and a negro fireman were killed and other trainmen were seriously injured.

Violations Concern Sweden.

Washington.—Another note from Sweden has been addressed to the state department through Minister Ekengren appealing to the United States for co-operation with the Swedish government and other neutral nations to maintain the preservation of rules of international law concerning the protection of neutral commerce and navigation. Action is proposed particularly against Great Britain, because of the detention of mail and other aggressions regarded by Sweden as unwarranted.

Pan-America in Peril.

Washington.—"Pan-American" is in peril!

Information in possession of the senate's foreign relations committee indicates a great German influence in Latin-America—Influence amounting to the establishment of footholds in several American republics that would gravely imperil the Monroe doctrine.

Brazil, Paraguay, Chile, Colombia, Nicaragua and the Danish island of St. Thomas, now under German lease, are the localities in which Heutonic power is unmasked.

"CASCARETS" FOR LIVER, BOWELS

For sick headache, bad breath,
Sour Stomach and
constipation.

Get a 10-cent box now.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All stores sell Cascarets. Don't forget the children—their little insides need a cleansing, too. Adv.

Few Musical Instruments Exported.

American manufacturers of musical instruments, with an annual output valued at about \$100,000,000, export only \$300,000 worth annually to foreign countries. American pianos are chiefly exported to Canada, where they constitute about 90 per cent of the total imports of that class, to Great Britain for reshipment to other parts of the world and to Central and South America. Our player pianos are sent in about equal numbers to Australia, England, Italy and Argentina.

COULD NOT LIE ON SIDE

And Had to Sleep With Head
High on Pillow, on Account of
Suffering. Says Cardui
Made Her Well.

Laurel, Miss.—Mrs. Martha A. Corbin, R. F. D. 4, of this place, writes: "I am glad to write this letter and you are welcome to use it... in any way you choose."

"I have had a soreness in my side so that I could not lie on it to sleep. The back of my head hurt me a great deal too, so that I had to lie with my head high on the pillow. Once a month I would have a great deal of backache... Then I would suffer from dizziness, which would be so bad I could hardly sit up and would have a very queer feeling in my head. The neighbors all advised me to have a doctor, but I had heard a great deal of Cardui and decided to take that. I swelled a great deal too... When that first began on me I would want to stretch and when I would stretch, the pain would run to my hips and shoulders."

"But I began to take Cardui, and before I had taken a half bottle I began to feel better and the swelling began to go down. The pain began to diminish and by the time I had taken two bottles I felt well enough to quit taking it... I think it is the grandest medicine that women can use."

Take Cardui. For sale by all druggists.

Albatross Traveled Fast.

It is known that in at least one case an albatross flew 3,400 miles in eight days. A bird captured near the coast of Chile on December 20, 1847, had about its neck a vial with a note dated near the coast of New Zealand on the 12th of the same month.

MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated,
give "California Syrup
of Figs."

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

A new gasoline engine uses only one-twentieth of a drop of fuel at a charge.

NICARAGUAN TREATY RATIFIED BY SENATE

FIVE DEMOCRATS OPPOSE AND 15
REPUBLICANS VOTE FOR
RATIFICATION.

OPTION ON CANAL ROUTE

Also Naval Base in Gulf of Fonseca
and Pays Nicaragua Government
\$3,000,000.

Washington.—The senate by a vote of 55 to 18 ratified the long-pending and persistently opposed Nicaraguan treaty, whereby the United States would acquire a 99-year option on the Nicaraguan Canal route and a naval base in the Gulf of Fonseca for \$3,000,000.

Included in the ratification resolution was a provision declaring that the United States in obtaining the naval base does not intend to violate any existing rights in the Fonseca Gulf of Costa Rica, Honduras and Salvador, which had protested against the proposed acquisition.

Five Democratic senators voted against the treaty. They were Chamberlain, Martine, Clarke of Arkansas, Thomas and Vardaman. Fifteen Republican senators joined the administration forces in support of the treaty.

Immediately after the senate had acted, Senator Chamorro, the Nicaraguan Minister, said he would at once communicate with his government and that he expected ratification of the convention by his government would soon follow and exchanges made to put the treaty in force.

Senator Clarke of Arkansas led the Democratic opposition to the treaty, while the Republican opposition was headed by Senator Borah and Smith of Michigan.

During the long debate declarations were made in the senate that Germany had offered Nicaragua more than had the United States for the canal route option, and this is said to have been used as an argument for ratification.

Senator Stone, chairman of the Foreign Relations Committee, will call up the Haitian financial portecotore treaty next, this to be followed by the amended Colombian treaty. Regarding the Colombian treaty there is grave doubt whether it can receive the necessary two-thirds vote for ratification.

LEGISLATORS IN FIGHT.

Oklahoma Solons Throw Ink Bottles
and Paper Weights.

Oklahoma City, Okla.—Tumultuous scenes occurred in the Oklahoma House of Representatives while the members were voting on a section of an election law designed to take the place of the famous "grandfather law" which recently was declared unconstitutional by the United States Supreme Court because in effect it disenfranchised the negro population of the state.

Partisan feeling over the new measure culminated in a near riot precipitated by charges of corruption and the passing of the lie between members, during which ink bottles and paper-weights were used as weapons. Arthur H. Geissler, chairman of the Republican State Central Committee, was knocked down and rendered unconscious by Representative Lorris E. Bryant of Big Heart, Osage county.

The proposed law, the product of a Democratic caucus, has passed the senate and was up for final passage in the house, with Republican and Socialist members offering vigorous opposition. Geissler was on the floor through the courtesy of a visitor's permit issued him as Republican State chairman.

Thousands of Armenians Dead.

London.—While full details of the capture of Ezerum, Auklish Armenia, are still lacking, semi-official advices from Petrograd are to the effect that most of the Turkish garrison made their escape. Thousands of Armenians are declared to have been massacred by Kurds before the evacuation.

Francis Named Ambassador.

Washington.—David R. Francis of St. Louis, secretary of the Interior in Cleveland's Cabinet and former Governor of Missouri, has been offered the post of Ambassador to Russia to succeed George T. Maryo. Mr. Francis has not replied, but President Wilson is understood to have urged him to accept. Mr. Maryo has advised the state department that his resignation has been mailed from Petrograd. It is informally stated that his health would not permit him to remain in the Russian climate.

Merchant Ships Have Right to Arm.

Washington.—All American diplomatic and consular officials abroad have been notified by the state department that the position of the United States is that merchant ships have a right to carry defensive armament. This is the first formal announcement that the United States does not accept as legal the announced intention of Germany and Austria to sink armed merchant ships without warning after February 29 as coming within international law.

TRAINING FOR WIVES NEEDED

College Education Declared to Be Necessary for Girls Who Want to Marry.

"Whether or not a college is worth what it costs depends upon the student," said Miss Edith H. Coldwell, dean of women at the University of Washington, in addressing the mothers of a high school in Seattle, according to the Post-Intelligencer of that city.

"I have seen a good many thousand-dollar educations put on fifty-cent girls. But someone mentally objects, 'I do not intend my daughter to earn her living. I expect her to be married, as every woman ought to be.' In that case, I should say emphatically more training is essential. Father is willing to put up with almost any amount of foolishness in his little girl, as he continues to think of her. Husband, if he is a man of sense, would like a companion for a wife, and not a doll. 'I feel, personally, that the married woman is not only under obligation to administer her home expertly, which means scientifically, but to make an intelligent contribution to the well-being of the community. Home-making is rapidly becoming a profession, and training is necessary for any profession.'"

Vessel of Odd Design.

Senor Gonzalo Mejia, who has a contract to carry the mails in Colombia, has designed a boat that, he believes, will be able to sail the Magdalena and its tributaries even when they contain less than a foot of water. This odd craft, which has a draft of only three inches, is propelled by two engines of 150-horsepower that drive two aeroplane propellers, and can travel at a rate of from fifteen to forty-five miles an hour. With this flying raft Senor Mejia expects to make a trip up the Magdalena, which in the dry seasons has hitherto taken 60 days, in 20 hours.

In Other Words.

An Arkansas man who intended to take up a homestead claim in a neighboring state sought information in the matter from an Irish friend.

"I don't remember the exact wording of the law," said the Celt, "but I can give you the meaning of it all right. It's like this: The government of the United States is willing to bet ye 150 acres of land against fourteen dollars that ye can't live on it five years without starvin' to death."

Modern Journalism.

"Good heavens! Another war extra?" "Yes, but don't be alarmed. It's merely yesterday's news warmed over."

What Did She Mean?

Miss Modern—Do you suppose that one should catch disease from kisses? Mrs. Wise—Well, I caught a husband.

AND WHAT COULD HE SAY

Gallant Gentleman, in the Circumstances, Would Seem to Have Been Left Without Answer.

It was a crowded Central avenue car. A gallant gentleman offered his seat to a woman who was accompanied by her young daughter.

"Oh, keep your seat," said the woman. Then the car gave a jolt, and evidently the man did not hear all the woman said. But he did hear something that sounded as if the woman suggested that he keep his seat and let her sit on his lap.

"I'm sure that I'm complimented," returned the gallant man, "but you didn't say that soon enough."

The car had come to a stop and there was dead silence for a moment, which was broken when the woman burst out:

"But, of course, you understand I was referring to my daughter, and not myself."

The reply of the gallant man, if he had any, was lost in the laughter that followed.—Indianapolis News.

WHERE PRISCILLA CAME IN

Probably There Will Be Some to Think She Was Not Altogether Such an Unlucky Girl.

While greeting an old-time friend, the conversation drifted to the daughters of the family. "How are the girls?" said I, by way of opening the ball and not wishing to appear especially interested in any particular one. "Well," said he, "Jane hasn't doing right smart. She tied up with a good-for-nothing grocery clerk. Mary, she married a stingy, sniveling, rich old banker what denies her pin money and everything that's mean. Kit got stuck on a poor, crazy-headed newspaper feller, and Ethel—well, she's about as bad off as can be, with a miserable crank article to put up with all her life!" "What's become of Priscilla, the oldest girl?" I ventured to inquire. "Oh, Priscilla's keepin' house for me and ma. She never was beautiful like the rest of my girls, so I guess the poor thing will never be lucky enough to catch a man!"—Zim, in Cartoons Magazine.

The Truth.

"You told me when I bought this lot that the town couldn't possibly grow in any direction but this."

"Well, it hasn't, has it? As a matter of fact, the population has decreased 50 per cent since that time."

Habit.

"Does he pay his alimony promptly?" "No. I have as much trouble in getting money out of him as if I were married to him."—Judge.

Where It Hits Hard.

Bluebeard was worried. "This dye shortage will put me out of fairyland," he cried.

Better Corn Flakes—

made by a brand new process—mighty tasty and always ready to serve.

New Post Toasties

resulting from years of practice and study, are the inner sweet meats of choicest Indian Corn skilfully toasted to a crackly, golden-brown crispness.

By a new process the true corn flavour, unknown to corn flakes of the past, is brought out in every flake.

As you pour Toasties from the package, note the little pearly "puffs" on the flakes—a distinguishing characteristic of these New Toasties. Another point—they don't mush down when cream or milk is added.

Insist upon these distinctive corn flakes—the New Post Toasties—

**They're New and Different
and Mighty Good!**

—sold by Grocers everywhere.
